We Want to Hear From You

Rodney Haag

rhaag@oaheelectric.com

“To move forward, you have to give back.”

This quote from Oprah Winfrey reflects the special bond and obligation that ties Oahe Electric Co-op to the communities we serve. With Valentine’s Day approaching, we can’t think of a better time to express how much we love this community and serving you, the members of the co-op.

We know when we helped to bring electricity to rural South Dakota many years ago, the quality of life improved for all. Through the years, other issues needed to be tackled and we have been at the forefront of helping to address some of those issues. We want to help meet the long-term needs of our community to ensure it continues to thrive – because just like you, we live here, too.

While our top priority is to provide safe, reliable and affordable energy to you, equally important is our mission to enrich the lives of the consumer-members (that’s you!) that we serve. This focus to benefit the larger community is central to the way we operate as a cooperative. Oahe Electric knows that electricity is a critical need for modern-day life, but it takes more than poles and power lines to make a community.

Over time, our co-op has evolved to meet the changing needs of our community, thereby improving the quality of life for everyone. That can mean many different things. It can mean programs for South Dakota’s youth, such as education scholarships or the electric cooperative Youth Tour, where we take our community’s brightest young people to Washington, D.C., for a weeklong immersion to experience democracy in action. It means organizing food and clothing drives and contributing to Operation Round Up®, a program that helps local families in need.

We all benefit from these programs because of you and your neighbors. You empower Oahe Electric through your membership and through your participation in and support of these programs.

As a local business, we are proud to power your life and bring good things to our community. We hope you will continue to guide our efforts by sharing your perspective as we plan for the future. The energy landscape is undergoing dramatic change fueled by evolving technology and consumer desires for more options. While the larger environment in which we operate is constantly changing, one thing remains the same. By working together, I’m certain that we can continue to do good things for our community.

“Oahe Electric knows that electricity is a critical need for modern-day life, but it takes more than poles and power lines to make a community.”

Energy Efficiency Tip of the Month

Are you using your fireplace efficiently? Remember to turn down the thermostat when burning a fire and close the damper when a fire is not burning.

Oahe Electric Cooperative Connections is published monthly by Oahe Electric Cooperative, Inc., PO Box 216, 102 S. Canford, Blunt, SD 57522, for its members. Families subscribe to Oahe Electric Cooperative Connections as part of their electric cooperative membership. Oahe Electric Cooperative Connections' purpose is to provide reliable, helpful information to Oahe Electric Cooperative members on matters pertaining to rural electrification and better rural living. Subscription information: Electric cooperative members devote 50 cents from their monthly electric payments for a subscription. Nonmember subscriptions are available for \$12 annually. Periodicals Postage Paid at Blunt, SD 57522 and at additional mailing offices.

POSTMASTER: Send address changes to Oahe Electric Cooperative Connections, PO Box 216, Blunt, SD 57522-0216; telephone (605) 962-6243; fax (605) 962-6306; e-mail oahe@oaheelectric.com; www.oaheelectric.com

Our Mission

Oahe Electric delivers high quality, low-cost electric service to our local member-owners. As a Touchstone Energy® Cooperative, we are committed to meeting the highest standards of customer satisfaction. We do business with accountability, integrity, innovation and commitment to community. As an electric co-op, we are part of America's most trusted network of high quality energy providers.

Oahe Electric Now Accepting Applications for 2020 Scholarships

Oahe Electric, in conjunction with Basin Electric Power Cooperative, is offering **one \$1,000** college scholarship to one lucky student in the Hughes and Sully County area. In addition to this scholarship, Oahe Electric is offering **three \$500** college scholarships.

The scholarship program recognizes and encourages the academic achievements of students in our region. It also serves as an investment in the economic future of rural areas.

Applicants for the scholarships must be a U.S. citizen and a dependent of Oahe Electric consumers. Applicants also must be students enrolled or planning to enroll in a full-time undergraduate course of study at an accredited two-year or four-year college, university or vocational/technical school.

The scholarship recipients are chosen based on a combination of SAT/ACT scores, overall grade-point average, work experience, participation in school and community activities, a personal statement of career goals and a written recommendation by a third party.

Also, if you apply for a scholarship, the essay included with your application automatically gets you entered in to the essay contest as well!

Applicants for the 2020-2021 academic year are being accepted until **Feb. 14, 2020**.

For more information, contact Samantha at Oahe Electric in Blunt, S.D., at 1-800-640-6243 or oahe@oaheelectric.com. Applications can also be downloaded by visiting our website at www.oaheelectric.com.

Write an Essay, Win a Trip to D.C.

Each year, Oahe Electric Cooperative, Inc. selects a high school junior or senior student from one of our area schools to accompany several other students from South Dakota on an all-expenses-paid trip to our nation's Capitol.

While in Washington, D.C., these students learn how our government operates and have the opportunity to visit several of our nation's landmarks. They also learn how rural electric cooperatives were formed and the partnership between the rural electrics and the federal government.

It's easy to enter. Just compose an essay of at least 500 words describing how cooperatives can be economic engines for their local communities. Submit it to Oahe Electric by **Feb. 14, 2020**. Applicants must be a dependent of an Oahe Electric consumer.

Don't miss out on this great opportunity!

Oahe Electric Accepting Lineman's Scholarship Applications

Oahe Electric Cooperative is offering a **\$500** scholarship for a full-time student registered or planning to register in a power line construction and maintenance program.

The purpose of this scholarship is to emphasize and support the education of future power line workers in South Dakota. Oahe Electric has committed to providing funds for financial assistance to students enrolled in power line maintenance programs with the hopes that graduates of that program will pursue a career with rural

electric cooperatives in the area.

Applicants for the scholarship must be a member or a member dependent of Oahe Electric. Applications for the 2020-2021 academic year are being accepted until **Feb. 14, 2020**.

For more information, contact Samantha at Oahe Electric in Blunt at 1-800-640-6243 or oahe@oaheelectric.com. Applications can also be downloaded by visiting our website at www.oaheelectric.com.

Space Heater Safety

Heating equipment is the second leading cause of home fires in the United States. More than 65,000 home fires are attributed to heating equipment each year. These fires result in hundreds of deaths, thousands of injuries and millions of dollars in property damage.

Portable electric space heaters can be a convenient source of supplemental heat for your home in cold weather. Unfortunately, they can pose significant fire and electric shock hazards if not used properly. Fire and electrical hazards can be caused by space heaters without adequate safety features, space heaters placed near combustibles, or space heaters that are improperly plugged in.

Safety should always be a top consideration when using space heaters. Here are some tips for keeping your home safe and warm when it's cold outside:

- Make sure your space heater has the label showing that it is listed by a recognized testing laboratory.
- Before using any space heater, read the manufacturer's instructions and warning labels carefully.
- Inspect heaters for cracked or broken plugs or loose connections before each use. If frayed, worn or damaged, do not use the heater.
- Never leave a space heater unattended. Turn it off when you're leaving a room or going to sleep, and don't let pets or children play too close to a space heater.
- Space heaters are only meant to provide supplemental heat and should never be used to warm bedding, cook food, dry clothing or thaw pipes.
- Install smoke alarms on every floor of your home and outside all sleeping areas and test them once a month.
- Proper placement of space heaters is critical. Heaters must be kept at least three feet away from anything that can burn, including papers, clothing and rugs.
- Locate space heaters out of high traffic areas and doorways where they may pose a tripping hazard.
- Plug space heaters directly into a wall outlet. Do not use an extension cord or power strip, which could overheat and result in a fire. Do not plug any other electrical devices into the same outlet as the heater.
- Place space heaters on level, flat surfaces. Never place heaters on cabinets, tables, furniture, or carpet, which can overheat and start a fire.
- Always unplug and safely store the heater when it is not in use.

Getting Involved

The state legislatures of both Minnesota and South Dakota convened in early January. Need to contact your legislator while in Pierre or Saint Paul? Here's how:

Contacting Members of South Dakota's Legislature:

Go to <http://sdlegislature.gov/> From there, you can search your senator or representatives, see the committees which they are assigned and send them an email. Need to reach them by phone? You can call and leave a message with the Senate at 605-773-3821 or with the House of Representatives at 605-773-3851. You can also send a fax to 605-773-6806.

Contacting Minnesota Legislators:

For contact information on Minnesota house members, visit:

<https://www.house.leg.state.mn.us/members>

For contact information on Minnesota senators, visit:

<http://www.senate.leg.state.mn.us/members>

KIDS CORNER SAFETY POSTER

"Don't let anything get near your extension cords!"

Sierra Staufacker, 9 years old

Sierra is the daughter of Cory and Staci Staufacker, Balaton, Minn. They are members of Lyon-Lincoln Electric Cooperative, Tyler, Minn.

Kids, send your drawing with an electrical safety tip to your local electric cooperative (address found on Page 3). If your poster is published, you'll receive a prize. All entries must include your name, age, mailing address and the names of your parents. Colored drawings are encouraged.

Bountiful Brunch

Pineapple-Zucchini Bread

3 eggs	3 cups flour
2 cups sugar	1 tsp. salt
2 tsp. vanilla	1 tsp. soda
1 cup oil	1 cup crushed pineapple, drained
2 cups peeled and grated zucchini	

Beat eggs, sugar, vanilla and oil. Mix in zucchini and dry ingredients; stir well. Fold in pineapple. Bake at 350°F for 1 hour. Makes 2 loaves.

Geraldine Dahlin, Beresford, SD

Apple Pie Breakfast Bake

2 cans refrigerated French bread	1 (14 oz.) can sweetened condensed milk
1 cup butter, melted	1 tsp. apple pie spice
1 (21 oz.) can apple pie filling	1 tsp. vanilla

Bake loaves as directed on can; cool 20 minutes. Cut 1-1/2 loaves into 1/2-inch cubes to equal 7-1/2 cups. Reserve remaining 1/2 loaf for another use. Increase oven temperature to 375°F. In a 9x13-inch glass baking dish, evenly layer melted butter, apple pie filling and bread cubes. In a medium bowl, stir together milk, apple pie spice and vanilla. Pour over bread, pushing bread down to absorb liquid. Bake 25 to 30 minutes or until deep golden brown and bubbly. Cool 15 minutes. Serve warm with maple syrup. (Note: You may also use day-old French bread cut into 1/2-inch cubes.)

Jean Osterman, Wheaton, MN

Breakfast Casserole

1 (8 oz.) can crescent rolls	1-1/2 cups shredded cheese
1 (16 oz.) pkg. bulk sausage, cooked and drained	8 eggs, lightly beaten
Diced onion, green pepper and mushrooms, optional	1/2 cup milk
16 to 32 oz. hash brown potatoes, depending on number of servings desired	1 pkg. country-style gravy mix, prepared according to package directions

Press crescent rolls in a lightly greased 9x13-inch pan. Spread with sausage crumbles and veggies. Layer hash browns on top. Sprinkle with cheese. Combine eggs with milk; pour over all. Spread on gravy. Bake at 325°F for 1 hour or until cooked through in the middle.

Kim Jost, Agar, SD

Grilled Fruit with Cinnamon Oatmeal Crumble

6 T. butter, softened, divided	2 ripe peaches, halved and pitted
2 T. light brown sugar	2 ripe plums, halved and pitted
1 tsp. cinnamon, ground	
3/4 cup quick-cooking oats	

Mix butter, brown sugar and cinnamon in a medium bowl. Reserve 2 T.; set aside. Add oats to remaining butter mixture, stirring until well blended. Brush fruit with reserved butter mixture. Place cut-side down on grill over medium heat. Tent with foil or close grill lid. Grill 2 minutes or until grill marks appear. Turn fruit cut-side up; spoon oat mixture evenly on top of each piece. Return foil tent or close lid. Grill 3 minutes longer or until fruit is tender and topping is crisp. Serve topped with whipped cream or ice cream, if desired. Cooking over a campfire? Place grill grate over top of campfire. Grill fruit as directed, rearranging hot coals as needed to maintain even direct heat. Makes 4 servings

Nutritional Information Per Serving: Calories 290, Total Fat 18g, Fiber 3g, Cholesterol 45mg, Sodium 137mg, Carbohydrates 29g, Protein 3g

Pictured, Cooperative Connections

Omelet in a Bag

2 large eggs	Green pepper, diced
Ham or bacon pieces	Mushrooms, chopped
Onion, chopped	Grated cheese
Tomato, diced	

Give each guest a quart-size Ziploc freezer bag and have them write their name on the bag with a permanent marker. Crack 2 eggs into each bag (not more than 2). Shake to combine them. Put out a variety of ingredients and let each guest choose what they want in their omelet. Shake the bag. Zip the bag after making sure to get all the air out. Bring a large kettle of water to a full rolling boil. Place the bags into the water. When the water begins to boil again, boil for exactly 14 minutes. You can usually cook 6 to 8 omelets at a time. For more, make another kettle of boiling water. Open bags and the omelet will roll out easily. Serve with fresh fruit and coffee cake.

Roxanna Streckfuss, Mansfield, SD

Please send your favorite seafood, appetizer and beverage recipes to your local electric cooperative (address found on Page 3). Each recipe printed will be entered into a drawing for a prize in June 2020. All entries must include your name, mailing address, telephone number and cooperative name.

Congress Passes RURAL Act, Preserves Co-ops' Tax-Exempt Status

Russ Hohn

rhohn@oaheelectric.com

Recently, Congress passed the RURAL Act, protecting more than 900 electric cooperatives throughout the nation from the risk of losing their tax-exempt status when they accept government grants for disaster relief, broadband service and other programs that benefit co-op members.

The Senate's vote to approve the legislation came two days after the House approved it as part of a sweeping tax and spending package. President Trump has signed it into law.

The RURAL Act was NRECA's top legislative priority for the year because of the profound threat to the business model of not-for-profit co-ops. Tens of thousands of co-op leaders, employees and members across the country rallied to advocate passage of the bill.

"This package preserves the fundamental nature of the electric cooperative business model and will save electric co-ops tens of millions of dollars each year," said CEO Jim Matheson. "Moreover, it protects co-op members from unfair increases in their electric rates and provides certainty to co-ops that leverage federal and state grants for economic development, storm recovery and rural broadband deployment."

Lawmakers passed the popular bipartisan legislation in the final hours of the 2019 session as part of a larger tax and spending bill that funds the government through September 2020.

The bill's passage fixes a problem created in 2017 when Congress passed the Tax Cuts and Jobs Act, which redefined government grants to co-ops as income rather than capital. That change made it difficult for many co-ops to abide by the 15 percent limit on non-member income to keep their tax-exempt status. The RURAL Act once again exempts grants from being counted as income and is retroactive to the 2018 tax year.

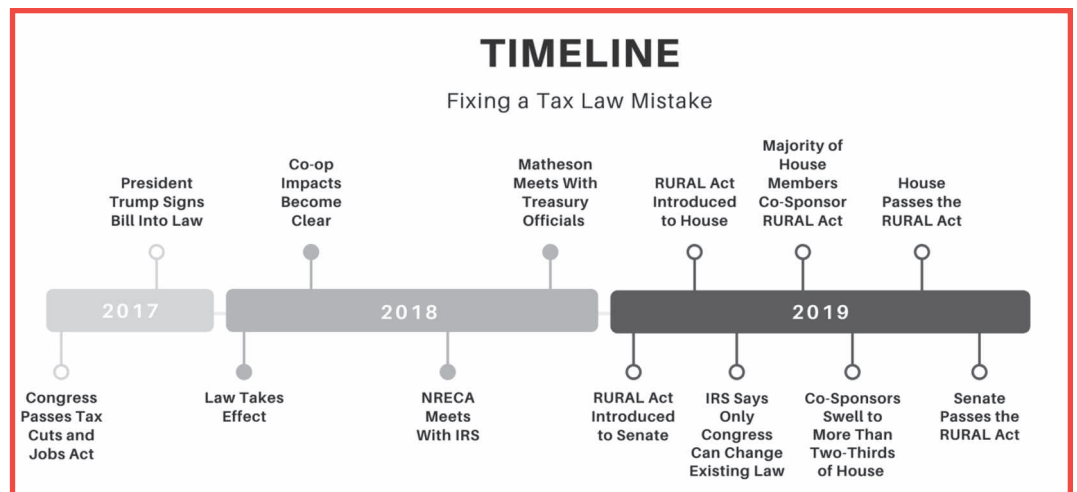

Without the fix, some co-ops would have had to start paying taxes this spring after receiving grants in 2018 or 2019 to repair storm damage, bring high-speed internet to rural communities or invest in renewable energy and energy-efficiency programs. Many co-op leaders feared they would have to raise rates for members to pay the new taxes.

The legislation attracted more than 300 co-sponsors in the 435-member House and nearly two-thirds of the senators. The effort was led in the House by Reps. Terri Sewell, D-Ala., and Adrian Smith, R-Neb., and in the Senate by Rob Portman, R-Ohio, and Tina Smith, D-Minn.

NRECA lobbyist Paul Gutierrez credited the victory to a collaborative campaign strategy that included co-ops' grassroots efforts to alert their senators and representatives to the issue.

"This was an amazing NRECA team and membership effort, including co-op members at the end of the line," he said. "We had great legislative champions in the House and Senate, and they worked tirelessly to get this included in the final tax package."

"This package preserves the fundamental nature of the electric cooperative business model and will save electric co-ops tens of millions of dollars each year,"

Avera Offers Farm and Rural Stress Hotline

As a resource for people in many Midwestern communities struck by flooding, wet conditions, and a volatile ag environment, Avera Health has created the Farm and Rural Stress Hotline.

Farmers, ranchers and people who live in rural communities can call 1-800-691-4336 24 hours a day. The call is free and confidential. The hotline is staffed by trained assessment counselors who put callers in touch with local mental health resources. Avera is one of only few health systems nationwide with a hotline similar to this.

“Farmers are expected to be tough, but that ‘pull-yourself-up-by-the-bootstraps’ mentality is so unfair to them,” said Matthew Stanley, DO, clinical vice president for the Avera Behavioral Health Service Line. “Mental health care in our rural population is what we specialize in and we want our agricultural friends to know that we are here for them.”

Avera is a 60-year regional leader in behavioral health services and offers a full continuum of services from psychiatry to outpatient therapy and counseling, inpatient care and addiction services.

“If you or someone you love is experiencing extreme sadness, anger, frustration, anxiety or hopelessness, we encourage you to call,” Stanley added.

South Dakota Gov. Kristi Noem recorded a Public Service Announcement (PSA) about the hotline saying, “I farmed and ranched for many years in South Dakota, but what we are seeing now are historically tough times. Flood damage, wet fields, a difficult and unpredictable ag environment. It can all add up to a heavy burden of stress.”

“This is the third year in a row of net farm income decline, and input prices keep going up, making work in agriculture that much harder,” said Jim Woster, a long-time ag-business consultant who serves as an advocate for farmers and ranchers in South Dakota. “Those hard times build up.”

Woster said that despite the stoicism rural folks are known for, he believes the hotline will be an effective resource. “Today’s farms are often partnerships between wives and husbands and children,” Woster said. “If this hotline can help just one person, it’ll be worth it.”

Stress and related mental health concerns should never cost you your life. If you feel overwhelmed or need help navigating the possible signs of depression, anxiety or other issues, call the 24/7 Farm and Rural Stress Hotline at 1-800-691-4336. Or you can call the National Suicide Hotline at 1-800-273-8255.

Winner of Question of the Month

The Question of the Month winners for the December 2019 publication were Jeff and Marietta Winkler. They correctly answered the question, “When are scholarship applications due?” The correct answer is Friday, Feb. 14, 2020.

Congratulations for providing the correct answer! They received an insulated grocery tote full of great prizes!

Question of the Month!

This month’s question is:

Name two things that Oahe Electric provides rebates for.

Please submit your answer via e-mail to oahe@oaheelectric.com with the subject line reading: Question of the Month. A winner will be chosen and surprise gift will be sent to them.

Like Us!

You can now keep in touch with your cooperative on Facebook!

We will share with you the latest news, events, power outage updates, energy efficiency tips, money-saving rebates, load management information, legislative alerts, safety tips and much more!

We hope you “like” Oahe Electric Cooperative, Inc. on Facebook.

ENERGIZING COMMUNITIES

We're led by members like you. Which means we're not out to make money. Instead, we're building communities by listening to your needs. We're shaped by the people we serve.

REASONS TO LOVE YOUR ELECTRIC CO-OP

Delivering More than Just Electricity

Brenda Kleinjan

editor@sdrea.coop

From reliable energy to community involvement, there are a lot of reasons why co-op members love their electric cooperatives.

Co-Ops Are Local, Community-Focused Organizations

Co-ops have a rich history of serving their members and are facing the future with innovative ideas to help their members and grow their local communities.

Local people helping out. From billing clerks to line workers and every job in between, the people working at your local electric cooperative are the ones you'll see in your communities. They are serving on volunteer fire departments and as first responders, serving on school boards and county commissions, as ushers at church and as youth sports coaches.

Sioux Valley Energy employees get final instructions before embarking on their meal delivery routes.

Some cooperatives have launched employee community service days where local communities or organizations benefit from a day of service, whether it be a town clean up, restoring a rural cemetery, delivering meals to shut-ins or helping others in need.

Keeping Members Informed

Whether it's through this magazine, which reaches members each month or through social media channels like Facebook and Twitter or mobile apps like SmartHub, cooperatives continually strive to inform their member-owners about events and issues that matter. From a quick post or tweet about why the power may have blinked or celebrating the achievements of area youth, co-ops are communicating with their members and connecting them to their community. As storms approach, co-ops offer helpful tips for preparing for inclement weather and how to deal with the aftermath of storms.

Helping Members Save Money

Co-op demand response and load management programs have helped members save money for decades. And now, with interactive tools like SmartHub, an increasing number of co-op members are accessing information about their home's energy use right from their mobile device or computer. Several co-ops offer energy audits and other ways to reduce energy use.

Appliance rebates, loans for heating and cooling equipment and reduced rates for some energy use

are offered by some co-ops in the state. Check with yours to find out what programs could benefit you.

Diversifying Energy Resources

Cooperatives have a history of using an all-of-the-above approach to meeting members' energy needs. The first utility-scale wind project in South Dakota was built by co-ops and several co-ops have solar demonstration projects to help members learn about solar grid interconnection and other aspects of the resource.

Investing in Youth

When it comes to looking to the future, co-ops have the youth in their communities in mind. Each year, co-ops invest more than \$100,000 in scholarships for students pursuing further education at colleges or technical schools. Dozens of students have the opportunity to go to Washington, D.C., for the annual rural electric youth tour, courtesy of their local electric cooperative. Several co-ops in the state send students on the four-day Youth Excursion to North Dakota each summer to explore energy careers and cooperatives. And throughout the school year, Co-ops in the Classroom and other safety demonstrations visit schools across the region to help younger students learn about using electricity wisely and how so be safe around it.

A participant on the 2019 Youth Excursion to North Dakota gives the view from the Antelope Valley Station power plant two thumbs up.

Co-op member service personnel receive training on blower door tests which can be a useful tool in a home energy audit.

Gillaspie Earns Directors GOLD Certification

Rodney Haag presented Board of Directors President Ken Gillaspie with his Director Gold certificate. A Director Gold certificate is earned after directors complete their CCD Courses (Cooperative Credentialed Director) and BLC (Board Leadership Courses). All of these involve a series of classes that ensure boards have a diverse set of knowledge and skills relevant to governing electric co-ops. Thank you for your commitment to your cooperative, Ken!

Oahe Electric's Manager Rodney Haag, left, presents Director Ken Gillaspie, right, with his Director Gold Certification.

Statement of Nondiscrimination

USDA, its agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Person with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotope, American Sign Language, etc.) should contact the responsible Agency or USDA's TARGET Center at (202)720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800)877-8339. Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at http://www.ascr.usda.gov/complaint_filing_cust.html and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by:

(1) mail: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights 1400 Independence Avenue, SW, Washington, D.C. 20250-9410; (2) fax: (202) 690-7442; or (3) email: program.intake@usda.gov

USDA is an equal opportunity provider, employer and lender.

Incentives and Rebates for Oahe Electric Consumers

Rebates and Electric Rates for Electric Heating Systems

- 1) **Electric furnace OR Electric boiler (100 percent efficient): \$200 rebate!** Plus, an electric rate of 5 cents per kWh on your heating usage. An air conditioner must also be purchased if you desire cooling in your building. An electric rate of 5 cents per kWh is available for air conditioners that are connected to a load management receiver.
- 2) **Air-source heat pump (with an electric furnace) (250 percent efficient): \$600 rebate!** Plus, an electric rate of 5 cents per kWh on your heating and cooling usage. The heat pump provides primary heating and cooling for your home. When ambient outdoor temperatures reach 15 degrees or less, the electric furnace will assist with heating requirements. If installed with a gas furnace, no rebates or reduced rate offered.
- 3) **Geothermal-source heat pump (350 percent efficient): \$600 rebate!** Plus, an electric rate of 5 cents per kWh on your heating and cooling usage. This is a stand-alone system which provides heating and cooling for your home.
- 4) **Unattached shops/garage buildings: \$600 rebate!** Plus, an electric rate of 5 cents per kWh on your heating and cooling usage, if you install an air-source heat pump with an electric backup or a geothermal-source heat pump. If you install a minimum of 8 kW resistance heat, you are eligible for a \$200 rebate and the reduced rate of 5 cents per kWh.

All heat pumps must be ENERGY STAR® rated and have a minimum rating of 15 SEER. Cord- and plug-style heating equipment is not eligible for rebates or reduced rates.

Rebates for Lighting

Commercial Members – Members are eligible for lighting rebates when replacing less efficient lighting and installing more efficient lighting. Payment will be \$0.20 per watt saved. Maximum payment per structure is \$1,000.

There are no lighting rebates for residential members.

Rebates for Water Heaters

Members will receive a \$6/gallon rebate and \$4 credit on their monthly electric bill. The consumer must agree to have a load management receiver installed on the water heater. If you have multiple water heaters, they all must abide by the criteria to qualify.

Water heaters that qualify for rebates and incentives:

- All Marathon electric water heaters with a lifetime warranty – 50 gallon or larger.
- All Westinghouse electric water heaters with a lifetime warranty – 50 gallons or larger.

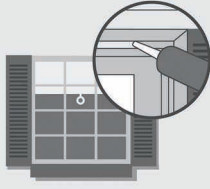

Four Tips for Winter Safety

It's no surprise that winter months bring increased potential for fire risks and electrical safety hazards. This makes sense because during the coldest months, consumers are using additional electrical devices and appliances, like space heaters, electric blankets and portable generators.

The National Fire Protection Association estimates that 47,700 home fires occur each year in the U.S. due to electrical failure or malfunction. These fires result in 418 deaths, 1,570 injuries and \$1.4 billion in property damage annually. This winter, safeguard your loved ones and your home with these electrical safety tips from the Electrical Safety Foundation International.

- 1) **Don't overload outlets.** Overloaded outlets are a major cause of residential fires. Avoid using extension cords or multi-outlet converters for appliance connections – they should be plugged directly into a wall outlet. If you're relying heavily on extension cords in general, you may need additional outlets to address your needs. Contact a qualified electrician to inspect your home and add new outlets.
- 2) **Never leave space heaters unattended.** If you're using a space heater, turn it off before leaving the room. Make sure heaters are placed at least three feet away from flammable items. It should also be noted that space heaters take a toll on your energy bills. If you're using them throughout your home, it may be time to upgrade your home heating system.
- 3) **Inspect heating pads and electric blankets.** These items cause nearly 500 fires every year. Electric blankets that are more than 10 years old create additional risks for a fire hazard. Inspect your electric blankets and heating pads – look for dark, charred or frayed spots, and make sure the electrical cord is not damaged. Do not place any items on top of a heating pad or electric blanket, and never fold them when in use.
- 4) **Use portable generators safely.** Unfortunately, winter storms can cause prolonged power outages, which means many consumers will use portable generators to power their homes. Never connect a standby generator into your home's electrical system. For portable generators, plug appliances directly into the outlet provided on the generator. Start the generator first, before you plug in appliances. Run it in a well-ventilated area outside your home. The carbon monoxide it generates is deadly, so keep it away from your garage, doors, windows and vents.

EASY WAYS TO SAVE ENERGY

<p>WEATHERIZE Seal doors and windows with caulk, weather stripping and/or plastic film.</p> 	<p>SEAL IN WARMTH Close blinds and curtains during the night to keep cold air out. Open them during the day to let sunlight in.</p> 	<p>COOK UP SAVINGS Use smaller appliances, like microwaves, toaster ovens and slow cookers when possible.</p> 
--	--	--

Small Change That Changes Lives

Several years ago, Oahe Electric Cooperative, Inc., implemented a program called Operation Round Up®. Operation Round Up® is just what the name implies. Each month, Oahe Electric Cooperative simply "rounds up" the electric bills of voluntarily participating consumers to the next highest dollar. The funds collected are then used to address charitable community needs, whether it is for an individual that may have experienced a personal tragedy, or an organization funding a special project. Since the program's first disbursement in 2009, the program has distributed over \$100,000.

All Operation Round Up® donations are placed in a trust and are administered by an independent Board of Trustees. The board is made up of community leaders who serve on a voluntary basis. The board evaluates all requests for funds, determines who will receive funding and how all Operation Round Up® monies will be distributed. The region served by the Trust is primarily the electrical area served by Oahe Electric Cooperative, Inc., including Hughes and Sully counties. The most gratifying thing about Operation Round Up® is that it is an extension of the concept of neighbor helping neighbor that built our electric cooperative.

The easy-to-complete applications for funding are currently available and may be picked up at the office of Oahe Electric Cooperative, Inc. in Blunt, S.D., or can be requested by phone at 605-962-6243. Applications can also be found on our website at www.oaheelectric.com. All applications are due by April 30, 2020. Completed applications may be mailed to: Oahe Electric Cooperative, Inc., PO Box 216, Blunt, SD 57522. Applications may also be faxed to: 605/962-6306. After the deadline, the Board of Trustees will assemble and allocate the funds to those they feel are in the most need.

Nemo 500 Outhouse Races

NAJA Shrine
Transportation
Fund for Kids
Benefits from
Outdoor Event

Brenda Kleinjan

editor@sdrea.coop

**We called it the
Nemo 500 because
it sounded good.**

When one thinks of racing, cars, horses or motorcycles likely come to mind. But, in the Black Hills community of Nemo, outhouses – equipped with wheels, skis or both – are the vehicle of choice.

While each outhouse must be equipped with a seat with one hole, there are additional basic requirements in this competition designed to raise funds for the NAJA Shrine Kids Transportation Fund.

First, each outhouse will have a rider. And during the race, that rider will trade places with a teammate.

“There always has to be someone on the throne,” said Ervin “Red” Alspaw, a Shriner with the Oasis of Deadwood and one of the contacts for the race.

The outhouse must be at least five feet tall and the door (if there is one) has to stay open during the race.

The outhouse must have four walls and a roof and the team’s name must be on each of the walls.

“It’s a hoot,” said Alspaw.

Money raised at the event helps Shriners cover the transportation expenses of some 630 children in western South Dakota who seek care at Shriners Hospitals

A team prepares to race their outhouse in the 2017 competition.

nationwide.

“We called it the Nemo 500 because it sounded good,” said Troy Saye, race organizer and owner of the Nemo Guest Ranch where the event is held.

“We stepped it off a few years ago and it’s actually about 970 feet. You start at the restaurant and at midway everyone runs around the outhouse, retrieving a colored roll of toilet paper which must be placed in the correct order on a plunger.

Alliterations, euphemisms and creativity may make for memorable team names, but speed is the name of the game as the fastest team to complete the

Kids compete in the scoop shovel races.

The Rules

OUTHOUSE RACE RULES and STRUCTURE

- 1) Outhouse can only be human powered. No electric-, solar- or gas-powered assistance. The outhouse must have four walls, roof, doorway and seat with at least one hole. It may have a door, but the door must remain securely open during the race.
- 2) The outhouse must be a minimum of nine square feet at the base and a maximum overall width not to exceed six feet (including grasping or pushing devices). A minimum height of five feet from the floor to the highest point of the roof.
- 3) Any number and size of wheels or skis may be used.
- 4) Any device for pushing or pulling the outhouse may be used except ropes. All pushing or pulling devices must be secured solid.
- 5) Outhouses may be built from any material but glass and must be structurally sound.
- 6) Each entry must have an outhouse name that is to be displayed on each side of the structure. Sponsors' names may be displayed anywhere on the outside.
- 7) There will be three age divisions. (Age divisions will be determined by average team ages. Add all team members' ages and divide by the number of team members.)
 - Division 1: Ages 12 to 25
 - Division 2: Ages 26 to 45
 - Division 3: Ages 46 and over

Good to know:

Teams consist of two to five people, one of which must ride inside the outhouse.

Safety gear including helmets are required for all members and ice cleats are recommended.

Outhouse passengers must be 12 years old or older. Handles or seatbelts are required for the outhouse passengers.

Teams' dress is to reflect the theme of their entry.

Teams make a mandatory pit stop at mid race for a fire-drill. Each member must run around the outhouse three times and the rider must switch places with one of the pushers. Each team member will be required to place a color-coded roll of toilet paper on a color-coded plunger in order of color scheme provided at race time. The race will be timed from start to finish, the objective is to get the lowest time to win.

The costumed Sesame Streak team poses with their People's Choice outhouse trophy after the 2016 race.

race is the winner.

Winners in each of the age divisions get an outhouse trophy hand-made by Troy and Willie Saye.

The Sayes created the event after a 2006 visit from Willie's cousin, shortly after they bought the Nemo Guest Ranch.

"He said he had to get home for an outhouse race. We didn't know what it was," said Troy. The couple researched the event and found that several other

states held races. They developed their rules for the Nemo event. Early races were held just for fun or to raise money for different organizations. The race has been a benefit for the NAJA Shrine Kids Transportation Fund for the last eight or nine years.

The creative names don't stop at the race team names. It takes a certain fortitude to dip a spoon into some of the entries in the chili cook-off contest where cooks serve up three gallons of chili with names like "Presidential Poopers Chili" and "Dave's Chunky Pork and Beef Chili."

Kids can compete in the Scoop Shovel Races, but competitors must provide their own scoop shovel.

If you're going, check-in for the three divisions is at 10 a.m. and race time is 1 p.m. Preregister your team by Feb. 1 to receive a T-shirt.

If you have a team but don't have

an outhouse to race in, contact the Nemo Guest Ranch to see if theirs is available.

Advice for first-time attendees? Arrive early, dress warm and be prepared for

a bit of a walk (late-comers have had to park a half-mile away from the event.)

Attendance at the event varies with the weather, Saye said. Crowds range from 1,000 people up to 2,400 people when the race time temperature was 53 degrees.

"You have got to see it to really enjoy it," said Saye.

"When we first started, we never imagined it would take off the way it did," said Saye.

Interested? Visit nemo500.com for more information or contact the Nemo Guest Ranch at 605-578-2708.

Kianna Knutson and Shane Binger left their 2018 wedding reception with a sparkler send off.

YOUTH TOUR SPARKS

Participants Make Lifetime Connections

Brenda Kleinjan

editor@sirea.coop

The annual Rural Electric Youth Tour is billed as a trip-of-a-lifetime, which it is for the thousands of teenagers who have participated since it began in 1963. But for a certain few, the weeklong trip filled with congressional visits, sight-seeing and co-op educational opportunities was more life altering than they possibly dreamed.

Kianna and Shane, 2011

Kianna Knutson and Shane Binger participated in the 2011 trip. Kianna, from Philip, S.D., represented West Central Electric Cooperative in Murdo, S.D., while Shane, from Tulare, S.D., represented Northern Electric Cooperative in Bath, S.D.

During the week of travel, the two would talk some and share experiences. A visit to the Pentagon Memorial was particularly memorable for the two.

“For me, we hit it off right away on the tour,” said Kianna.

“But we went our separate ways. Whenever I’d head west, I’d try to stop in Philip and see her,” said Shane. “We kept in touch until we got to SDSU together.”

They started dating while attending South Dakota State University in Brookings, S.D. Shane graduated in December 2015 and Kianna in May 2016 and the two married in September 2018. They live in Redfield, S.D., and Kianna works in Aberdeen while Shane works in Tulare.

“The Youth Tour was one of my most favorite trips,” said Kianna. “It was a great way to meet people and make friends. It turned out one of them stuck for life.”

A sign at the Bingers’ wedding reception highlights the sparks taht started with their 2011 Youth Tour.

For Shane, an additional outcome of the trip was that it sparked an interest in politics.

“It was an opportunity to see congress-people as actual people. That drove me to go back and intern with Sen. John Thune in 2015,” said Shane.

Riley and Kailee, 2009

Riley Schwader and Kailee Koester attended the 2009 Youth Tour together. Riley, of Winifred, S.D., represented Central Electric Cooperative in Mitchell, S.D., while Kailee of Redfield, represented Northern Electric.

They married in June 2014 on the heels of that year’s Youth Tour, which Riley’s sister participated (as did Kianna Knutson’s sister.)

The Schwaders live in Howard where they raise their two sons and where Kailee teaches fourth grade. The family was recently featured in a “ReEnergizing Rural” commercial talking about the Co-ops in the Classroom project.

Doug and Roberta, 1973

Roberta Johnson, a 4-Her from Parker, S.D., chosen to represent Turner County and Doug Stuebner, a 4-Her from Olivet, S.D., selected to represent Hutchinson County, met on the 1973 Youth Tour as the delegates for Turner-Hutchinson Electric Cooperative (now Southeastern Electric Cooperative), based in Marion, S.D.

“We started dating on Thursday, Oct. 18, 1973, when he asked me to go to the Hobo Week street dance at SDSU,” said Roberta, noting that Doug often wondered how she could remember the date. “I told him it was easy to remember because it was two days before her sister got married.”

Things clicked for the two and they made plans to marry.

“If I hadn’t been the South Dakota Pork Queen, we probably would have been married in December of 1975. But I needed to be single to compete at the national level, so Doug was willing to wait until the national competition was held in March of 1976. When someone else was crowned the national pork queen, Doug and I moved forward with our wedding

The Youth Tour was one of my most favorite trips.

plans and were married on Father’s Day, June 20, 1976. Even without the title of pork queen, I could still educate others about the nutritional value and versatility of pork when I became involved with the Porkettes.”

The two graduated from SDSU with majors in ag education and home economics education and were preparing to head to Marietta, Minn., when an opportunity to take over his grandparents’ farm came up.

“Entering farming had been a long-range goal, but when the farming opportunity arrived earlier than expected, we accepted. So, once again, Turner-Hutchinson Electric influenced our lives since they provided the electricity for our home and farming operation. We continued farming until June of 2006 when Doug had surgery for brain cancer. Initially, we were told the life expectancy for this type of treatable, but not curable, cancer was 18 months to two years. But by God’s grace and through hundreds of prayers, he has outlived that life expectancy by 11 years,” said Roberta.

The two moved into Menno in 2008 where Roberta continues teaching high school family and consumer sciences and middle school social studies.

Ethan and Vanessa, 2012

Ethan Ryberg of Buffalo Lake, Minn., was selected to represent McLeod Co-op Power in Glencoe, Minn., on the 2012 Youth Tour, the same year that Vanessa Peterson of Rosholt, S.D., was selected to represent Traverse Electric Cooperative in Wheaton, Minn. The two traveled with the Minnesota Youth Tour delegation that year.

While the two lived three hours apart, they began dating that fall and in 2013, they attended North Dakota State University in Fargo, N.D., together, majoring in pharmacy.

After their 2019 graduation, they have settled in the Bemidji area where they both work.

Electric cooperatives in South Dakota and Minnesota are once again taking applications for the annual Youth Tour to Washington, D.C. The 2020 participants might not find their future mate, but they will definitely have experiences of a lifetime.

The Schwaders live in Howard where Kailee teaches. They were recently featured in the electric cooperative “ReEnergizing Rural” campaign.
